

"GRSee Consulting's high level reporting is clear and actionable to our entire team, enabling us to respond quickly, effectively, and with confidence."

- Alex Getsin, Dir. of Information Security at Tipalti

Who We Are

GRSee Consulting is your trusted partner when it comes to cybersecurity.

With the GRSee Consulting penetration testing service, our proficient team of IDF veterans, hackers, and security experts provides penetration testing for everything from code to cloud, identifying product and environment vulnerabilities so they can be mitigated before a real attack occurs.

CASE STUDY

Problem

Tipalti is a financial technology company that provides businesses with comprehensive solutions for accounts payable, global remittance, and other finance operations processes.

As a Fintech company that undergoes continuous development, Tipalti's stakeholders recognize the need for penetration testing to identify vulnerabilities before they're exploited.

Solution

GRSee Consulting partnered with Tipalti to execute PT that would satisfy the demand from both internal stakeholders and external regulations.

GRSee Consulting provides a clear, structured, and customized engagement to support Tipalti's requirements including documentation and recommendations.

Results

As a part of Tipalti's extensive security regiment, GRSee Consulting's services provide ongoing support to promote trust for Tipalti's business to customers and financial and technology partners.

GRSee Consulting's reporting and executive briefings relay key insights to internal and external stakeholders as Tipalti continues providing best-in-class security for its offerings.

"GRSee Consulting's high-level reporting is clear and actionable to our entire team, enabling us to respond quickly, effectively, and with confidence." - Alex Getsin.
